Competencies: Responsive web design, cross-browser compatibility, UI/UX optimization, CMS administration

WORK EXPERIENCE

Front-End Web Developer & Multimedia Designer | //TheManilaProject.co | Aug 2024 – Dec 2025 | Hybrid

- Redesigned the company website using HTML, CSS, JavaScript, and PHP, improving site navigation, page load structure, and overall UX.
- Built and maintained fully responsive web pages compatible across multiple browsers and devices.
- Collaborated with cross-functional teams to implement design changes aligned with company branding and marketing goals.
- Managed updates and content changes on an ongoing basis, ensuring site stability and consistency.

Multimedia Designer & Web Developer | Pet Sitter Company (Hong Kong-based) | May 2024 – Jul 2024 | Freelance / Remote

- Rebuilt the client's Wix website from scratch, modernizing the layout and significantly improving mobile responsiveness.
- Implemented UI improvements that enhanced service page clarity and user navigation flow.

EDUCATION

Bachelor of Science in Computer Science

AMA University East Rizal | 2022 – 2026

Senior High School – ICT (Information and Communication Technology)

World Citi Colleges Antipolo | 2020 – 2022

FREELANCE & PROJECTS

M Web Design | Solo Freelance Web Design Service | 2024 – Present

- Operate an independent studio delivering responsive websites, CMS setups, and front-end builds for clients across multiple industries.
- Portfolio and business site: mwebdesign.shop

Community Blotter & Complaint System | Capstone Academic Project

- Designed and developed a full-stack web application for barangay complaint management using Next.js, Prisma, and MySQL.
- Handled front-end architecture, database schema design, and end-to-end feature implementation.
